<b>Subject:</b>	Enhance Silo's configure to export PDB Lite		
<b>Description:</b>	<p>Add a new option to Silo's configure which is off by default to <code>_export_ PDB Lite</code>.</p> <p>This will mean...</p> <ul style="list-style-type: none"><li>* <code>pdb_lite.h</code> and <code>score_lite.h</code> headers will get installed to Silo's include directory during a <code>@make install@</code> operation.</li><li>* A set of macros to map PDB symbols to their lite equivalents will be included in <code>pdb_lite.h</code> and <code>score_lite.h</code></li><li>* This will allow most existing PDB clients to link to and use PDB Lite. For example, VisIt will no longer maintain its own versions of these files.</li></ul>
