

Silo - Bug # 1178: MinGW Compilation Failure

Status:	New	Priority:	Low
Author:	Aleksandr Spiridonov	Category:	
Created:	08/24/2012	Assigned to:	
Updated:	08/29/2012	Due date:	
Likelihood:	2 - Rare		
Severity:	3 - Major Irritation		
Silo Found in Version:	4.8		
OS:	Windows		
Support Group:	Any		
Subject:	MinGW Compilation Failure		
Description:	Cannot make Silo on Windows 7 (64-bit) using MinGW. (Works under cygwin). Tried installing 4.7-4.8. Steps to replicate: 1) ./configure (or) ./configure -disable-silex 2) make This results in error upon compilation of silo.c. Log of the shell window is attached.		

History

08/29/2012 01:26 pm - Mark Miller

- *Likelihood changed from 5 - Always to 2 - Rare*

I reduced likelihood to 'rare' because although the problem may always occur on MinGW, this is the only MinGW specific issue I am aware of and so across all Silo users, the likelihood of this being an issue is low.

08/29/2012 01:28 pm - Mark Miller

- *Severity changed from 5 - Very Serious to 3 - Major Irritation*

I reduced severity to major irritation because it is a problem with compiling
