Subject:	Silo db expressions aren't properly updated when they change		
Description:	<p>Brian Ryujiin has a set of species expressions that change depend on the evolution of a simulation.</p> <p>Even with the flag MetaDataIsTimeVaring on the expressions don't seem to update.</p> <p>To reproduce:</p> <p>Sample data is on the rz @ /usr/gapps/visit/bug_data/issue_1231/</p> <p>* Open an plot the var "SpeciesFractions/AIR/O" Take note of the definition of this expr by looking at the DB expressions.</p> <p>* Change the timestep An error will occur.</p> <p>* Reopen The expression will change and plot correctly, the new expression is listed as a DB expression. We need to make this happen automatically.</p>
