Impact:	3 - Medium		
Expected Use:	3 - Occasional		
OS:	All		
Support Group:	Any		
Subject:	streamline gui portion of build_visit		
Description:	<p>It is very clear that devs don't use the gui part of build_visit & it is very confusing for users, sys-admins.</p> <p>My recommendation:</p> <p>Try to make sure it works a handful of common use cases, leave the advanced stuff to command line options.</p> <ul style="list-style-type: none">-Set parallel flags-Server Components only <p>& I think we should build tried and true DB libs (silo, etc)</p>
