<b>Subject:</b>	namespace support for Dan Laney		
<b>Description:</b>	<p>Dan is implementing namespace support in his silo output files.</p> <p>We expect to support this with a new Silo release, hopefully for VisIt 2.6.1</p> <p>Prior to our supported release, Dan would like to be able to test reading his new files with VisIt. We need to contact him and provide beta build of VisIt to close the loop.</p> <p>Here are two expected checks:</p> <ol style="list-style-type: none"><li>1) Make sure new general namespace support works.</li><li>2) In some cases, his mesh has empty domains, we need to see how VisIt handles this.</li></ol>		

### History

**12/06/2012 05:34 pm - Eric Brugger**

- Status changed from New to Pending

**01/15/2013 07:13 pm - Mark Miller**

- Assigned to set to Mark Miller

**02/06/2013 11:01 am - Eric Brugger**

- Target version changed from 2.6.1 to 2.6.2
