

Silo - Bug # 1277: Fix documentation for DBPutCompoundarray

Status:	New	Priority:	Normal
Author:	Mark Miller	Category:	
Created:	12/13/2012	Assigned to:	
Updated:	12/13/2012	Due date:	
Likelihood:	3 - Occasional		
Severity:	2 - Minor Irritation		
Silo Found in Version:	4.8		
OS:	All		
Support Group:	Any		
Subject:	Fix documentation for DBPutCompoundarray		
Description:	Reported by Lee Busby...		
	<p>A small documentation problem: Page 2-240 of the Silo User's Guide, which documents DBPutCompoundarray: The Fortran interface lists 12 dummy variables, including "nvalues". The real interface, in src/silo/silo_f.c, only has 11 dummy parameters. The "nvalues" variable is computed, then passed to the C version of DBPutCompoundarray.</p>
