

Silo - Bug # 1289: Silo Cycle info can't be attached to a ucd multi mesh

Status:	Pending	Priority:	Normal
Author:	Cyrus Harrison	Category:	
Created:	01/03/2013	Assigned to:	Mark Miller
Updated:	01/15/2013	Due date:	
Likelihood:	3 - Occasional		
Severity:	2 - Minor Irritation		
Silo Found in Version:	4.8		
OS:	All		
Support Group:	Any		
Subject:	Silo Cycle info can't be attached to a ucd multi mesh		
Description:	From Rob Neely: Cyrus, Looks like the only function that honors DBOPT_CYCLE is DBPutUcdmesh(). None of the multi mesh/var/mat objects use it, nor does put material, put zone list, etcâ€¦ Interestingly, DBOPT_DTIME seems to be honored by the putmultimesh. --Rob
