<b>Subject:</b>	python launcher isn't compatible with python 3		
<b>Description:</b>	Attached scripts demonstrate the issue.  The error is in the string module (which we may not need to use, python strings have a builtin "find" method)  Reported on the user's list, here is the visit error:  [julien@ledomi bin]\$ pwd /home/julien/install/visit2.6. 1/src/bin [julien@ledomi bin]\$ ./visit Traceback (most recent call last): File "/home/julien/visitfelpython1881", line 241, in <module> File "/home/julien/visitfelpython1881", line 70, in ParseVersion AttributeError: 'module' object has no attribute 'find'

- Status changed from New to Pending

At our meeting we decided that the correct solution si to include our python in the distribution and then make sure that the launcher uses it.
