Subject:	add DB_INT64 to Silo (and other C9X types)		
Description:	<p>cq-id: VisIt00009020 cq-submitter: Mark Miller cq-submit-date: 02/09/10</p> <p>I rated this as 'low' user improvement as DB_LONG_LONG basically does this. However, user's concern is that the size of that type can vary from system to system and s/he wants a guaranteed 64 bit int.</p> <p>I am not sure Silo should have to support 64 bit integer values on systems where that type is not somehow supported natively.</p>
