Updated:	06/09/2011	Due date:	
Likelihood:	3 - Occasional		
Severity:	2 - Minor Irritation		
Silo Found in Version:	4.8		
OS:	All		
Support Group:	Any		
Subject:	silo test suite failure with python2.7		
Description:	<p>Hi,</p> <p>I'm the Debian Linux maintainer of "silo" (packaged as silo-lnl). On a recent rebuild with python2.7, the test suite test 'write' failed:</p> <p>Doing:</p> <pre>import Silo db = Silo.Create("foo.silo", "test file") db.Write("foo", 4) db.Write("foo", 4.2)</pre> <p>the second write fails on "TypeError: integer argument expected, got float" on python2.7, it works on python2.6</p> <p>On the python help list, Matt Cowles pointed out http://bugs.python.org/issue5080 which suggests it may not have worked as intended originally.</p>
